

Veteran's Assistance

Congress provided robust emergency funding to ensure the Department of Veterans Affairs (VA) has the equipment, tests, and support services – including setting up temporary care sites, mobile treatment centers and increasing telehealth visits to allow more veterans to get care at home – necessary to provide veterans with the additional care they need. For further guidance as this funding and initiatives are implemented, please refer to the U.S. Department of Veterans Affairs [website: https://www.va.gov/](https://www.va.gov/).
